

Sir

New York of 15th Oct. 1702

About ten year ago I acquainted
you of the death of your Brother who
was a prisoner on this Barolo or Long
Island. I assure you I rendered him
every service in my power, & supplied
him with what cash he wanted, I waited
upon him twice and would have done it
often (notwithstanding I was quarantined
Twenty Miles from him) but was con-
vinced the people whom he lived with
took every care of him in their power.

Before he was taken sick I had pro-
vided him leave to return home
he was seized with a Violent Fever of which
he died before the flag was ready to
sail —

You were so obliging when you
wrote to me from Philadelphia by your
late Brother to say you would procure
leave for Mrs. Holland to make a short
visit to her Children, I have not the
least

last doubt you did obtain ~~it~~
and send it but I imagine it
has ^{been} miscarried as I never
received it —

I have taken liberty
to. deliver Mr. W. G. Gray who will
deliver you this I. request & your
help is far more in obtaining leave
for Mrs. Holland which will be
gratefully acknowledged both by
her & myself —

I expect to go to England in the
Spring. Mr. Weyh Wallace has men-
tioned to me that a number of your papers
had fallen in the hands of Sir James
Wallace, and that he had applied to
James for them — but Sir James informed
him he had delivered them to L. How
who

who carried them to England, I
have the Honour. to personally
acquaint with D. How, and if
it is your wish that I should apply
for them you will please write
me upon the subject. I have not
the least doubt of obtaining them
and you may be assured I will take
the greatest care to send them to you
by the first safe conveyance
I have the Honour to be
with great respect

Yours most truly
J. Sullivan
Stephen Holland
